## \$1.60 LEVY SEEMS ALMOST CERTAIN FOR NEXT FISCAL YEAR

Councilmen and Members of Board of Education Unable to Find Place Where They Might Whittle Down Expenses.

At the request of Chairman William Smith, of the Ways and Means Committee of City Council, members of that committee met with members of the Board of Education at the Council Chamber on Tuesday evening for the purpose of going over the city's financial condition at the beginning of the new fiscal year.

Mr. Smith explained to the members of the Board of Education that in spite of the increase in assessment returned by the Board of Equalization the city would be unable to operate on the money left figured at a \$1.50 tax rate if the city gave to the Board of Education all of the money their budget called for and asked if there wasn't something the Board of Education could cut down on for the year.

Representatives of the school board told the city's financial committee that the budget presented to council represented just exactly what they would need to properly operate the city schools for next year and after a general discussion, it was decided to place the figures squarely before the taxpayers of the city by the publication in the local press of the budgets of both the Board of Education and the City Government showing the people just exactly what their money was being collected in taxes for.

It was figured that in order to give the city the money necessary to properly operate and to give the Board of Education the money necessary to operate the schools, a tax levy of at least \$1.60 per hundred dollars would be necessary. This will be carefully threshed out and a meeting of City Council will likely be called for Friday evening to finally fix the tax rate for the year.

## FLEMINGSBURG AUCTIONEER FACES SERIOUS CHARGE

Federal Court Whisky Charge Made Against Well Known Local Tobacco Auctioneer.

The Fleming Gazette says: "Saturday Deputy U. S. Marshal Williams and Attorney Harry Klaine were here from Covington looking up evidence against D. A. Vick, who was arrested at Lexington as being implicated in the theft of a quantity of whisky from a distillery at Versailles on the night of March 17th. It is understood that Vick is implicated by testimony of a man named Thompson who is also under arrest for the crime. Thompson being from the western part of Fleming county, where it is said some of the stolen whisky was disposed of by bootleggers, some of it likely reaching Flemingsburg.

"Vick, who was here as auctioneer during the loose leaf tobacco sales, denies that he had any part in the crime and claims an alibi that he was registered at the McDonald hotel here March 17, the night the whisky was stolen. His name appears on the register at that date, when he says he was here as salesman for paints.

The officer while here summoned several witnesses to appear in the case when it is called in U. S. Court at Frankfort, and will attempt to show that Vick was not here on the night of March 17.

Most of the time while here as auctioneer Vick with his wife stopped at the Fleming hotel.

D. A. Vick was here from Lexington Sunday, looking after his side of the case against him, as mentioned elsewhere. He is out under \$5,000 bond and his preliminary hearing has been set to come up in the U. S. Court at Frankfort next Saturday.

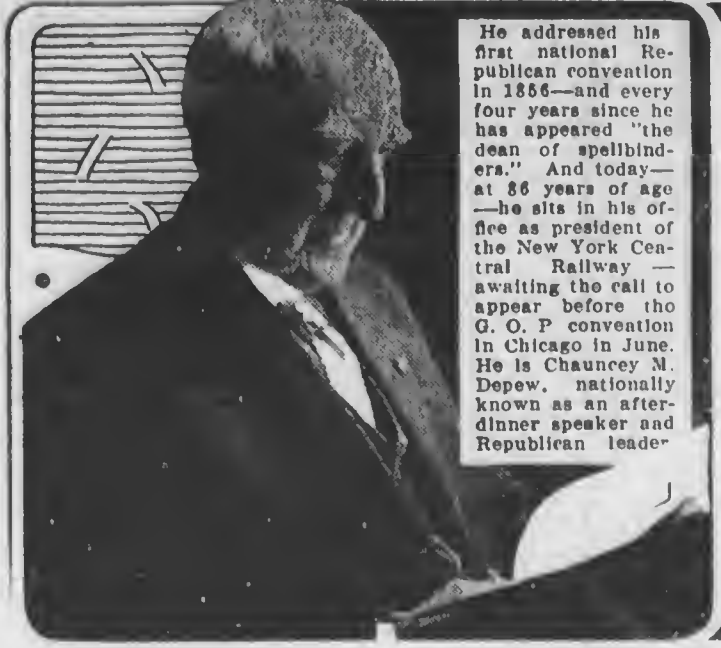

### SENIOR CLASS IS GIVEN LUNCHEON PARTY.

Mr. Robert A. Cochran, for many years a member of the City Board of Education, to whom this year's Senior Class of the Maysville High School, dedicated their annual, entertained that class Tuesday evening at a luncheon party at his beautiful home in the West End. Delightful refreshments were served and the boys' band furnished music.

Miss Elizabeth Hunter left Monday for Monmouth, Ill., where she will attend the Monmouth College commencement, and her class reunion, and will also visit a classmate in Chicago.

## ODDFELLOWS BAND AND ORCHESTRA COMING HERE

Arrangements Being Made for Entertainment By Band and Orchestra From Odd Fellows' Home.

At last night's meeting of DeKalb Lodge, I. O. O. F., the Secretary was instructed to get into communication with the authorities at the Kentucky Odd Fellows' Orphans' Home at Lexington in an effort to have the boys' band and girls' orchestra from that institution give an entertainment here on the evening of July 16.

These juvenile musicians will be at Lexington on July 15th and it is expected that they can be induced to come to Maysville for the following day to give an entertainment for the benefit of all local Odd Fellows and their wives and friends. A committee was appointed last night to make all the necessary arrangements for the entertainment of the youths while in Maysville.

While this organization is primarily a musical organization there are several accomplished readers among the members and they give a most delightful entertainment. A special campaign is now being waged by Odd Fellows in Kentucky for the benefit of their home and it is hoped that this entertainment will create new interest in the campaign among Mason county Odd Fellows.

### COLORADO HIGH SCHOOL COMMENCEMENT TONIGHT.

The streets are becoming crowded with colored people who are coming to the city for the annual Colorado High School Commencement which will be held at the Opera House tonight. The program is said to be exceptionally good. The graduates are said to have excellent parts and the music to be the best yet. The tickets are selling fast. All Maysville, Mason county and adjoining counties seem to be coming to the colored commencement tonight at the opera house.

### AUTO STRIKES STREET CAR.

An automobile driven by Mr. L. C. Gaddy, of Germantown, ran into a street car in Market street near the band stand this morning. The automobile was badly damaged but the street car was uninjured.

Mrs. Edward P. Lee and sons, Ned and George left yesterday for an extended visit at Denver, Colo., and Salt Lake City, Utah. While there she will visit Yellowstone Park and the Grand Canon.

## BALLOTING MAY NOT BEGIN AT CONVENTION UNTIL SATURDAY

Committees Making Reports Today and Nominating Speeches Will Be in Tomorrow—Mason County Delegation On Hand.

Chicago, June 9.—The chief matters on the program today are reports from the Platform and Credentials committees. As a result of an all-night session the Credentials committee cleaned up its work. The most important case decided by it was that involving the delegates from the Fifth (Kansas City) Missouri district. The National committee had thrown out the delegates from that district, but the Credentials committee will report in favor of seating them, thus giving the convention its full quota of delegates, 984; necessary to choose, 492.

The Credentials Committee session ended in a tie in the Wood-Lowden issue, the general having gained one delegate in Georgia and one in Tennessee at the expense of Lowden and the latter having won two in Missouri. But the Platform committee is still at it, hammer and tongs, these instruments being mainly in the hands of those who differ in regard to the peace treaty and the League of Nations.

When the first ballot will be taken is just about as uncertain as who will be nominated. The program calls for it on Friday. The most hopeful don't look for it before Friday night, while those who are on the inside of the situation say it won't come before Saturday.

### MAYSVILLE DELEGATION ARRIVES SAFELY.

Chicago, June 9.—The Mason county delegation of Republicans arrived in the Convention City safe and sound and had little trouble gaining admission to the Convention hall for the first day's session. Those members of the delegation leaving Maysville Monday which did not have tickets have been appointed Sergeant-at-Arms for the entire Convention so that all will be able to attend all sessions and see the next President and Vice-President nominated.

Governor Lowden, of Illinois, has the support of the Kentucky delegation and Lowden stock has taken a sudden rise since the gavel of the convention fell. The big fight between General Wood, Senator Johnson and Governor Lowden is the interesting feature of the meeting thus far unless it be the masterful key-note address delivered by Senator Lodge at Tennessee.

## OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

## VICE PRESIDENT MORROW?

Would not passing from the Governorship of Kentucky to the Vice Presidency of the United States be a demotion? To be the chief executive of the State of horses that browse amid the blue grass and of colonels who browse amid the mint, to preside over the commonwealth where the chivalry of Virginia has been transplanted to its greater glory, and then to be called upon to nod over the mouthings of Borahs and Johnsons and Reeds—surely, that were an anti-climax.

But the talk of Edwin P. Morrow, Governor of Kentucky, for the Republican nomination for Vice President will not down. And the young Governor has intimated that he would not refuse. If destiny should decree that Governor Morrow pass from Frankfort to Washington, the Vice Presidency no longer will be a thing of buttermilk or nickel cigars. It will be an office graced by good speeches and good stories and an ingratiating personality.

And if Edwin P. Morrow should be Vice President of the United States for four or for eight years, reviving the influence of an office that the Fathers intended should mean much in our scheme of government—well, we venture the suggestion that he may remain, officially, in Washington.—Cincinnati Times-Star.

## LADIES FIRST.

In the good old days the first toast upon the program was always "The Ladies!" In the very best of those good old days it was always drunk standing.

It may be that, in memory of that ancient, honored custom it is the ladies who have determined to be first in the field at Chicago with tactics which, we regret to note, are borrowed from England. Precisely as Parliament was picketed so will be the Coliseum until and unless solemn assurance comes forth that the case of the peevish governors be taken summarily in hand and they be ordered to call special sessions for the ratification of the amendment—nineteenth, isn't it?

But suppose the governors are obdurate? What then? Really, much as we are for the cause we cannot always applaud the methods. Are we to be answered with the Machiavellian maxim—"Who wants the end, must want the means to that end?"

## NO REVIEW OF ESPIONAGE CASES.

The Supreme Court of the United States refused to review testimony in the cases of the Government against C. B. Schoberg, shoemaker, of Latonia, Ky.; Henry Feltman, wealthy tobacco dealer, Kenton county, and Henry Kruse, former Covington brewer. They were convicted under the espionage act in the Federal Court in Covington in 1918, following testimony said to

have been obtained by installing a dictagraph in Schoberg's shoe shop. Feltman was fined \$40,000 and sentenced to 7 years, Kruse 5 years and Schoberg 10 years. The defendants will be summoned to court soon as the mandate is received from Washington. The shallowest parts of the ocean are the Baltic and Adriatic seas, each of which has an average depth of 22 to 23 fathoms.

## Courtesy is Reciprocal

When a man walks into a store and "anaps" at the clerk, he is usually not greatly surprised if the clerk's reply is a little "snappish," too; human nature is built that way.

The young women who operate the telephone switch boards are taught that they must be courteous to patrons if they wish to retain their places. Yet telephone operators are human—just like other folks.

Things do not always go exactly right around the telephone exchange—just as in the office, the store, or even in the home. No telephone apparatus has yet been manufactured that works absolutely perfectly, all the time and under all conditions.

Some delays, inconveniences, and some poor service must be expected. Even trains are sometimes late; store deliveries sometimes go astray, and letters sometimes reach the wrong address.

And, somehow, when things go wrong around the telephone office, "calling down" the operator never seems to remedy them.

## GOMPERS IS DEFEATED IN FIRST TEST.

In the political campaign he has started on the slogan that "Congress must be overhauled," Mr. Gompers, designated Representative McArthur of Oregon as one of the men to be re-elected to the scrap-heap. McArthur had voted for the anti-strike clause of the railroad bill. He must go. So there was a special effort to defeat him in the primaries. The most popular candidate discoverable was brought out—a man with a creditable record in the world war. McArthur not only defeated the candidate who bore the Gompers stamp of approval, but he had a majority of votes over all his adversaries. The people of this district evidently prefer a Congressman who has a mind of his own, and the courage to use it, rather than a man who will be a rubber stamp for Mr. Gompers.

## FEDERAL RESERVE PROFITEERING.

Liberty Bonds will continue at a low price as long as high grade railroad bonds are offered on a seven per cent. basis. And the rail bonds will have to pay that rate so long as the Federal Reserve Board charges six and seven per cent. for the money loaned through the Federal Reserve Banks. But apparently the banks are to continue to earn enormous profits (last year 110 per cent.) even though the effect is to take hundreds of millions of dollars away from the holders of Liberty Bonds.

The first national convention for the nomination of president and vice president was that held by the anti-Masonic party in Philadelphia, in 1830.

## "IN THE DAY'S NEWS."

M. Paul Painleve, who is passing through America on his way to the Orient, is one of France's most representative men, equally famous as a statesman, orator, and savant. During the late world conflict he served as French War Minister and for a time filled the premiership. The son of an artisan, M. Painleve at the age of 11 had all the scientific knowledge required for a bachelor's degree; at twenty-three he was a professor of science at Lille, and at twenty-eight he was appointed to a chair at the Sorbonne. It was only ten years ago that he entered public life as a member of the Chamber of Deputies, but his rise since then has been remarkably rapid. His first cabinet post came to him in 1915, when he was made Minister of Instruction and Universities. He is a wonderful orator, and probably in all France there is no man who can better sway a popular audience.

I desire, also, to take advantage of this opportunity to express my sincere thanks to the many Republicans throughout the state who have, without solicitation on my part, so kindly and generously offered me their support.

## A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

## To Keep American Ships on the Seas

For the first time since the Civil War we have a real merchant marine. It cost us \$3,000,000,000 to get it.

The farmer, manufacturer, laborer—every American is interested in holding our position on the seas.

As a first step in this direction it is necessary to modify those articles of existing commercial treaties which have operated to thwart the upbuilding of our merchant marine—

By giving the notice of termination for which the several treaties provide.

This action is directed in the constructive Shipping Bill now before Congress.

Which declares it to be the policy of the United States "to do whatever may be necessary to develop and encourage" a merchant marine.

This policy deserves the support of every American. Lacking this support the present effort to maintain our merchant marine may suffer the fate of many ineffective attempts of the past.

Send for a copy of "For an American Merchant Marine."
